FEATURED Gamma fireplace with detailed ceramic fiber logs

GAMMA

Our Gamma fireplace is ideal for mid-size rooms. The deeper firebox, full-size log set and two rows of flames provides a more realistic fireplace appearance. Recessed application or choose an optional cabinet mantel/base combination (custom mantel shown) to give the appearance of a full-size mantel and base. These complete systems include a zero-clearance compact firebox, arch screen, black louvers and concealed controls.

Wood mantels in a variety of styles and finishes

Options

Remote Controls

Perimeter Trim Kit in Black and Platinum

| GAMMA (THERMOSTAT) | LP | 17,000-26,000 | 99.9% |

*Annual Fuel Utilization Efficiency (AFUE) is the recognized U.S. rating system for the total efficiency of heating products.

IMPORTANT NOTES:

As with any heating appliance, fireplace or stove, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, ceiling height, accessories chosen and appliance location.

Diagrams, illustrations and photographs are not to scale – consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.

Built to ANSI Z21.11.2 standard and approved by PFS Test Laboratories. Consult your distributor for local fireplace code information.
