

Common Doughboy Pool Features

To give our consumers peace of mind about the longevity of a Doughboy pool, we look at all of the product details at the manufacturing level. The quality construction and innovative design of today's Doughboy pools, along with our generous product warranties, have made Doughboy the industry leader.

Frame Features & Benefits

- **Com-Pac™ II Oval Support System with Steel Construction** offers stylish, one-part tapered design that only exposes 9 inches of the support for a more attractive appearance. Accommodates larger pool models in smaller backyards. Support is concealed within the vertical.

- **Zinc Clad™ 11000 Hot Dipped Galvanized Copper Bearing Steel** provides a comprehensive anti-corrosion galvanizing process and maximum durability.

- **Ultra Violet (U.V.) Stabilizers** protects against the sun's damaging rays.

- **Interlocking Frame Structure** for strength and rigidity.

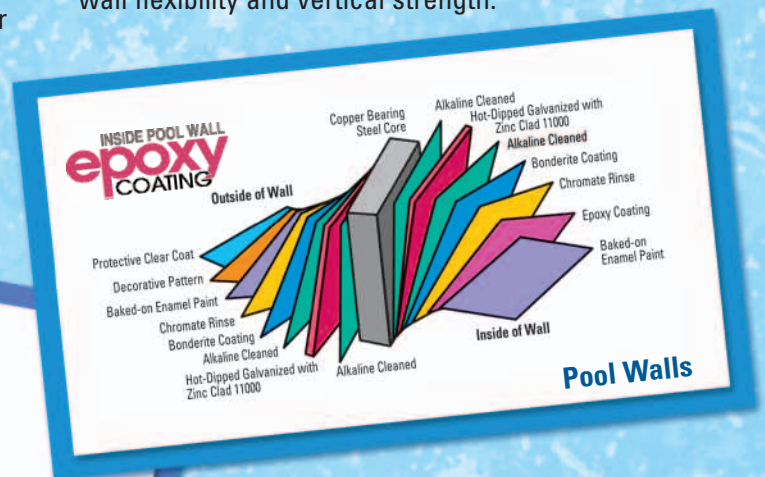

- **Hidden screw connectors** to prevent snagged suits and scratches.

- **Smooth Frame** for a virtually wrinkle-free installation.

Wall Features & Benefits

- **Exclusive! Epoxy coated, Zinc Clad™ 11000 Hot Dipped Galvanized Copper Bearing Steel** provides a comprehensive anti-corrosion galvanizing process, maximum durability, and protection against condensation.

- **Balanced Corrugation (Corru-ribbing)** offers wall flexibility and vertical strength.

- **Exclusive! Slide-Bar Wall Connector** joins the pool walls together without drilling holes for complete structural integrity and ease of assembly. It creates a seamless and smooth swimming environment.

- **Positive Seal Skimmer System (Flattened Corrugation)** ensures superior gasket seal.

- **Pre-punched Skimmer and Return Fitting Openings** eliminates sharp edges which may cut liner.

- **Extra-Wide Skimmer Openings** allows for superior surface cleaning – as wide as most in-ground pools.

- **In-Pool, Direct Vacuum** delivers effortless pool maintenance.
